

# AGRI Cu 50

Copper Oxychloride

Packaging: 1 - 5 kg

## COMPOSITION:

Copper(Cu) total	50%
------------------	-----

## TECHNICAL FEATURES:

AGRI Cu 50, applied by foliar application, prevents and reduces copper deficiencies by making it readily available to the plant. Its special formulation, containing a wetting agent and activator, increases its persistence on the plant, providing uniform coverage. AGRI Cu 50 is mixable with commonly used fertilizers and pesticides, excluding TMTD, amino acids, and those with a highly alkaline reaction.

## PHYSICAL CHARACTERISTICS:

Fine powder

Grinding fineness: <1µm (98% passes through a 0.063mm sieve)

## METHOD AND DOSAGE OF USE:

### FOLIAR APPLICATION

Walnuts, hazelnut:	Volumewater 1000 lt/ha	1.5-2 kg/ha
Cropsfrom fruit:	Volumerduced water	1.5-2 kg/ha
Screw:	Reduced water volume	1.5-2 kg/ha
Olive tree:	Reduced water volume	1.8-2.4 kg/ha
Strawberries, vegetables:	Reduced water volume	1.2-1.6Kg/ha
Open field crops:	Reduced water volume	1.1-1.5 kg/ha
