

AGRI Azo

Simple mineral fertilizer nitrogenous

Packaging: 12 - 25 - 270 - 1300 Kg

COMPOSITION:

Total Nitrogen (N)	30%
Nitrogen (N) nitrate	7.5%
Nitrogen (N) ammonium	7.5%
Nitrogen (N) urea	15%

TECHNICAL CHARACTERISTICS:

AGRI Azo is a liquid fertilizer indicated for all crops that require a high supply of Nitrogen. The balanced presence of nitrogen forms (Nitrate, Ammonium, and Urea) gives the product a gradual action over time, stimulating the vegetative growth of plants and promoting the absorption of other nutrients.

PHYSICAL CHARACTERISTICS:

Specific weight: 1.30 Kg/l
pH of the 1% solution 7.26
Conductivity 1% (mS /mc): 1.07

METHODS AND DOSAGE OF USE:

FOLIAR APPLICATION

Vegetables, strawberries:	120-150 cc/hl
Fruit crops, citrus, olive, vine:	200-220 cc/hl
Florals:	80-120 cc/hl
Extensive:	10-20 lt/ha
Nurseries, turf:	200-220 cc/hl

ROOT APPLICATION

Tree plants:	for intervention	80-120 lt/ha
Vegetables, strawberries:	for intervention	8-12 lt/1000 m ²
Fruit crops:	for intervention	80-120 lt/ha
Nurseries:	for intervention	50-70 lt/ha
Flowering ornamental plants, turf:		8-12 lt/1000m ²
