

# AGRIAMMIN Plus

Organic Nitrogen Fertilizer – Fluid Hydrolyzed Animal Epithelium

Packaging: 1.3 - 6 - 12 - 25 - 270 - 1300 Kg

## COMPOSITION:

Total nitrogen (N)	8%
Organic Nitrogen (N)	8%
Carbon (C) organicof biological origin	24%
Dry matter	63.5%
C/N ratio	3.2

## TECHNICAL FEATURES:

AGRIAMMIN Plus is a liquid organic nitrogen fertilizer derived from hydrolyzed animal epithelium. It has excellent complexing and carrier properties for all nutrients and their associated chelates. AGRIAMMIN Plus contributes to the multiplication and reactivation of soil microorganisms, providing them with nutrients. AGRIAMMIN Plus improves the quality of crops (color, size, consistency, sugar content, shelf life).

## PHYSICAL CHARACTERISTICS:

Specific gravity: 1.26

pH of 1% solution: 4.5-6.5

Conductivity at 1% (mS/cm): 0.68

## METHOD AND DOSAGE OF USE:

### FOLIAR APPLICATION

Fruit trees, vines, citrus fruits, kiwi, olive:	Spacing treatments 8-10 days apart	200-300 cc/hl
Vegetables, Floriculture in open field:		200-300 cc/hl
Crops industrial, potatoes, beets, cereals:		6-8 lt/ha

### RADICAL APPLICATION

Fruit trees, vines, citrus fruits, kiwi, olive:		10-12 lt/ha
Floricultural, ornamental:	For intervention every 15-20 days	1.5-2 L/1000m <sup>2</sup>
Vegetables post-transplant:	For intervention every 15-20 days	1.5-2 L/1000m <sup>2</sup>
