

# AGRICITO

Bio-vegetable regulator

Packaging: 1 Lt

## COMPOSITION:

Total water-soluble nitrogen (N)	3%
Organic Nitrogen (N)	1.8%
Oxideof potassium (K <sub>2</sub> O)soluble in water	3.2%
Organic substance of plant origin	17.5%

## TECHNICAL FEATURES:

AGRI Cito is a blend of plant carbohydrates and amino acids used to improve quality and yields by accumulating proteins in all parts of the plant. AGRI Cito contains simple sugars that directly deliver essential plant carbohydrates and amino acids to enhance the plant's metabolism. cytokinins present promote cell division which, with a greater supply of nutrients, leads to uniformity of the fruit and an increase in size.

## PHYSICAL CHARACTERISTICS:

Specific weight: 1.20 gr/ml

pH as is: 5

Conductivity at 1% (mS/cm): 0.5

## METHOD AND DOSAGE OF USE:

### FOLIAR APPLICATION

Fruit trees, citrus fruits, vines, olives, kiwis:	3 interventions	2 liters/ha
Vegetables:	3 interventions	2 liters/ha

All the crops:		30-35 liters/ha
