

# AUXIALGA

Fluid plant growth activator

Packages: 1- 6-12 - 25 Kg

## COMPOSITION:

Natural seaweed extract ( <i>Ecklonia maxima</i> )	
Natural auxins	11.0 mg/liter
Cytokininsnatural	0.031 mg/liter

## TECHNICAL FEATURES:

AUXIALGA provides natural substanceshormone-similar. It is a natural extract derived from *Ecklonia Maxima* Obtained by cold extraction. This algae contains plant substances that have an exceptional actio.phytostimulantEven at very low doses, it acts as a cell multiplier due to its high auxin content (300:1 ratio). It also has micronutrient action, aids nutrient absorption, and improves the plant's resistance to low temperatures.

## PHYSICAL CHARACTERISTICS:

## METHOD AND DOSAGE OF USE:

### FOLIAR APPLICATION

Fruit trees,vine, citrus fruit, olive tree, kiwi:	fromto do vegetative	200-300 gr/hl
Fruit vegetables:	transplant andpre -flowering	200-300 gr/hl
Leafy vegetables:	from the first true leaves	200-250 g/hl
Floricultural:	fromvegetative phase	150-200Kh /ha
Industrial crops:	from the first true leaves	200-300 kg/ha

### RADICAL APPLICATION

Fruit trees,vine, citrus fruit, olive tree, kiwi:	1.3 kg/ha
Fruit vegetables:	2-3Kg/ha
Leafy vegetables:	1-1.5 kg/ha
Floricultural:	2-3Kg/ha
Industrial crops:	1-3 kg/ha
