

# ADESIVO AGRI

Anti-foam adhesive

Packaging: 1 - 5 - 10 Kg

## COMPOSITION:

Silicone emulsions in the water	
Polysiloxane	0.2%
Methyl-isothiazolene	0.00015%

## TECHNICAL FEATURES:

ADESIVO AGRI is a formulation designed to increase the persistence of fungicide, insecticide, acaricide and herbicide solutions, as it accentuates their effectiveness by giving them high adhesiveness, improving the wettability of the active ingredients on the leaves.

## METHOD AND DOSAGE OF USE:

AGRI ADHESIVE should be stored in a protected environment, taking care to avoid sudden changes in temperature and temperatures below 0 degrees Celsius. Add the product at the same time as the other products in the mixture are dissolving. Use in doses of 50-100 g/ha of solution.

**Agri Adhesive is miscible with all pesticide and herbicide mixtures.**
