

AGRIBIOFERT

NK Fluid Organic Fertilizer – Fluid vinasse

Packages: 6 - 12 - 25 - 270 - 1300 Kg

COMPOSITION:

Total nitrogen (N)	3%
Water-soluble organic nitrogen (N)	3%
Potassium Oxide (K ₂ O) soluble in water	6%
Organic carbon (C) of biological origin	10%

TECHNICAL FEATURES:

AGRIBIOFERT is a liquid organic product of plant origin that provides the soil with nitrogen and potassium, in an optimal ratio for the growth and ripening of the fruit, as well as organic biostimulants to create an ideal substrate for the best development of microorganisms present in the soil. It revitalizes exhausted soil, resulting in increased vegetation and consequently higher yields. AGRIBIOFERT protects plants from same of various nature.

PHYSICAL CHARACTERISTICS:

Specific weight: 1.3

pH of the 1% solution: 6.8

Conductivity at 1% (mS/cm): 0.72

METHOD AND DOSAGE OF USE:

FOLIAR APPLICATION

From 1 to 1.5 kg/hl of water, spacing treatments 8-10 days apart.

RADICAL APPLICATION

Fruit trees:	TO end of winter	200-300Kg/ha
Vine, Citrus fruits:	Autumn or late winter	200-300 kg/ha
Vegetables:	Taking root occurred due to intervention	10-20 kg/1000m ²
